

Product information

Name: Metal cable fixing head PG type

Brand: Wenzhou Chuangda Connector Co., LTD

Item Number: WZCHDA-HPG

Color type: metallic

Product material: A.C.F part is made of brass plated nickel (stainless steel 304/316), E part is made of UL approved nylon PA66 (fire rating UL94V-2), BD part is made of EPDM weather resistant rubber. (Cold and high temperature rubber can be customized; High acid and alkali, chemical and corrosion resistant rubber.)

Thread specification: German PG teeth. (We provide a full range of semi-pass/full-pass metal cable connectors)

Operating temperature: static: -40°C~100°C, short time up to 120°C. Dynamic: -20°C~80°C for a short time up to 100°C.

Features: Design of special clamping claw and clamping ring, wide range of clamping cable, strong tensile resistance, waterproof, dustproof, salt resistance, weak acid, alcohol, oil, grease and general solvent.
