

KONTAKT IPA

UNIVERSAL CLEANER FOR ELECTRONICS, FINE MECHANICS AND OPTICS

KONTAKT IPA is 99.7% pure isopropanol in a spray can. The ready to hand aerosol enables a pinpointed, clean application. Ideal as a multi-purpose cleaner to improve the performance and reliability of electrical and electronic equipment.

FEATURES	APPLICATIONS
<ul style="list-style-type: none"> Extremely pure Evaporates completely, leaving no residue. Non-staining on glass and blank metals. Safe application due to the sealed can. Less soiling. Trouble free storage Extension tube for hard-to-reach areas. 	<ul style="list-style-type: none"> Cleaning of : <ul style="list-style-type: none"> Magnetic heads on video and audio equipment. Disk drives and rubber rollers Optics, mirrors, polished metal surfaces. Printed circuit boards Removal of : <ul style="list-style-type: none"> Resinified lubricants and greasy dirt on fine mechanics. Water resistant and felt-tip inks.

Note :

Isopropanol is compatible with commonly used plastics, but it is recommended to test prior to use. Do not spray directly onto magnetic heads, use a swab drenched in KONTAKT IPA.

Color :	Colorless
Flash point :	< 12 °C
Density at 20° C :	0.79 g/cm³
Evaporation rate :	11 (ether=1)
Purity (without propellant) :	
- Isopropanol :	min. 99.7 %
- Water :	approx. 0.2 %
