

kingdom electronics

- ▶ The extremely competitive cost of our products
- ▶ The personal back up service rendered by us, and
- ▶ The quality and reliability of our products

why choose us?

we are members of:

specifications:

- ▶ Prevents battery from discharging completely
- ▶ Plugs directly onto 7AH battery or supplied with battery leads
- ▶ 4,8mm lugs for panel or charger wiring
- ▶ Automatically cuts power when battery voltage falls to 10,6v
- ▶ Automatically restores power to battery when charger voltage is re-applied
- ▶ LED indication
- ▶ Current rating 5A @ 12VDC
- ▶ Physical size - 59mm x 40mm

application:

- ▶ To prevent total discharge of battery on any alarm or access control installation

installation:

- ▶ Plug battery charger wiring onto unit, observe polarity
- ▶ LED and relay energise
- ▶ Plug unit onto battery

low battery cutout
