

3528 SMD LED

Features:

1. Luminous flux can be up to 10lm
2. The color rendering index can be controlled above 80
3. Reflow can be passed at 260°C
4. Tailor making is allowed as clients' different requirements, such as: LEDs color, color temperature, luminance, power and so on.
5. Supplied in rainbow tube, light bar, fluorescent lamp, geographical lamp, ceiling lamp, luminous LED modules and so on

Parameter:

Product model	POWER(W)	CT,(k)		chromaticity coordinate(x,y)		Luminous Flux(lm)	Forward Voltage(V)	viewing Angle(2θ1/2)	Forward current(mA)
		white	TYP	TYP	TYP				
MYS-3528WWT	0.06	white	6500K	0.315,0.315	3-10	3-3.6	120	20	
MYS-3528WST	0.06	warm white	3500K	0.400,0.380	3-10	3-3.6	120	20
