

Conductive paint pen conductive ink pen electronic pen conductive pen Bare Conductive Paint conductive pen

Model: 3816 / 180068

Specification:

Brand: Ausbond
 Description: Conductive paint pen
 Model: 3816
 Colour: Silver / Copper
 Curing Method: Ambient Temperature
 Resistivity: $2.5\text{m}\Omega/\text{mm}^3$
 Viscosity: Thixtropy mixture
 Solid Content: $48 \pm 1\%$
 Curing Time, surface: 2~10 min.
 Curing Time, solid: 24h
 Volume: 6ml

Typical Application:

Electrical Conductivity, Shielding, Antistatic, PCB track repair, Flexible circuits, Connections on Paper, DIY Circuits.
