Add a touch of class to
your product

Custom design service for
specific requirements

Quality assured

Sifam Controls offers a wide variety of collet knobs, push-on knobs, slider knobs, pushbuttons and accessories. Together with our printing options and custom moulding service, we can provide an infinite number of permutations suitable for almost any application.

Add a touch of class to your product

Our control knobs are manufactured in a wide range of thermoplastic materials and have function, style and handling as principal design factors. The quality 'feel' is unmistakable and so adds to the quality of your product. This catalogue shows in detail the standard range of types, sizes and colours for our collet knobs, push-on knobs, slider knobs, push buttons, associated caps and accessories. All ordering codes and dimensional information are included for fast and easy product selection.

Custom design service for specific requirements

If your product calls for a personal touch, we can cater for most control knob requirements from design through to manufacture using the latest technology, including 3D CAD and multi-shot moulding. You are guaranteed expert attention throughout the process. Function and styling criteria for all components can be customised. Should your product require a standard combination from the existing range or a custom designed control knob, the item can also be printed to meet your specific application. The flexibility of the range and the varying levels of customisation make Sifam Controls the number one manufacturer of control knobs.

Quality Assured

Through our continuous efforts for ever better products and service to the customer, we have earned many quality endorsements. Our Quality Management System is assessed to BS EN ISO 9001:2008.

Now is a good time to turn to quality - Sifam quality!

Collet Knobs – the complete range

Ordering procedure
 Please remember to quote the appropriate Collet knobs and accessory part number for each item according to type, size and plain or with line requirements. Please also state the colour required when ordering. Available colours are referred to on Page 9.

Packaging
 Collet knobs and accessories are packed, as standard, in multiples of ten. For orders over one hundred pieces, items may be packed in bulk and quantity discounts are available.

* Cannot be used with soft-touch collet knobs.

Timeless 'Classics'

Function, styling, handling and simplicity of use are the hallmarks of these quality control knobs.

Collet Knobs

The main criteria in the design of collet knobs and accessories have always been function, styling, handling and simplicity of use. Accessories, including caps, pointers, figure dials and nut covers have been designed to push-fit into the collet knob body to give added versatility.

All Collect knob bodies, caps, pointers and nut covers are manufactured in nylon with a finely textured matt finish. Transparent figure dials are manufactured in polycarbonate, coloured dials are nylon. Collets, housings and nuts, fitted into the knobs during manufacture, are of brass and will accommodate a wide range of shaft diameters and bush lengths. All knobs shown are available in black or grey as standard. Other colours are available to order.

Two colour soft-touch collet knobs

These items meet the needs of the general industrial and audio market for a soft-touch finish as an alternative to the traditional hard surface finish.

The two shot process, using polypropylene and thermoplastic elastomer, allows the indicator line to be moulded rather than printed. Full details are specified on page 6. The standard body colour is black and the line, when specified, is white. Other colour combinations are available to order - please refer to page 9.

Both items can be used as a dual concentric set.

Dual Concentric Assemblies

This table shows the knob combinations suitable for dual concentric assemblies. Please contact the sales office for details of special through hole collets, if required.

TOP	BASE
10mm	13mm
11mm	15mm
15mm	21mm
21mm	29mm

Accessories

All collet knobs are designed to accept caps once fitted to the shaft. These with other accessories are details on page 6, with available colours on page 9.

Installation Torque

The maximum torque that should be applied to collet nuts when installing them on a shaft is as follows:

Turning Torque

The torque that can be transmitted by knobs without slipping, assuming the knob has been adequately tightened on the shaft, is as follows:

Knob Type	Shafts	Shafts	Knob Type	Shafts	Shafts
	2mm, 3mm, 4mm and 1/8 in	6mm, 1/4 in and 3/16 in		2mm, 3mm, 4mm and 1/8 in and 3/16 in	6mm and 1/4 in

S47, SC47, SCF47					

Conventional push-on knobs

A quality push-on knob manufactured in nylon, matching the style of the collet range, with a finely textured matt finish. All require a cap as per the collet range (other accessories cannot be fitted). All knobs shown are available in black or grey as standard. Other colours are available to order. Please refer to Page 9.

Shaft configuration

Our push-on knobs have been designed to provide a simple and secure shaft attachment. The internal moulding grips the shaft securely, with 'D' shape, splined or slotted configurations. Some 'D' shape shafts feature an integral metal compression ring.

Line positioning for flatted shafts

As standard, line printing, if required, will be in the position detailed in the drawings below. Should you require alternative line positioning, please state the location with your order. The printed line may be positioned

centrally in any flute; flutes are at increments of 60° on 11mm knobs, 45° on 15mm knobs, 36° on 21mm knobs and 30° on 29mm knobs. The 15mm bar knob is shown below in the SIFAM standard

form, with the wings perpendicular to the shaft 'flat'. However, the angle of the wings to the 'flat' of the shaft may be altered by 45° increments if required.

Dual Concentric

11 & 15mm knobs can be supplied for this application. Please contact sales office for details.

Push-on knobs – two colour in soft/hard touch

In addition to our conventional range of push-on knobs, we offer more specialised items, each incorporating design features tailored to meet the changing requirements of some customers.

A two shot moulding process is used so that the cap/pointer is an integral part of the knob, thus avoiding subsequent assembly costs. Soft touch knobs are of polypropylene and thermoplastic elastomer to provide a smooth velvet feel, the hard touch is all polypropylene.

Colours

The standard body colour is Black. Other colours are available to order. Pointers are available in a wide range of colours.

Please refer to Page 9 for colour options.

Ordering procedure

Please quote the part number and state required body and pointer colour. Available colours are referred to on Page 9. For special colours please contact the Sales Office. For items fitting to D shafts the pointer will be positioned as standard adjacent the flat. If alternative orientation is required please state the number of degrees clockwise from the standard position when viewed from the bottom. Minimum quantity 1000.

Packaging

Push-on knobs will be packed in bulk.

3/05 6/05		12mm

Dimensions	Part Number	Shaft Style	Description
	3/02/TPN110 006	 6mm SHAFT Ø, 18 SPLINES	Traditional SIFAM styling with integral nut cover and soft touch finish. The pointer continues over to the top centre of the knob body. The top of the knob is colour co-ordinated with the pointer.
	3/02/DRN110 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	3/03/TP110 006	 6mm SHAFT Ø, 18 SPLINES	Traditional SIFAM styling in soft touch finish. The pointer continues over to top centre of the knob body to provide accurate positioning without the more prominent colour coding of the 3/02 series.
	3/03/DP110 004	 4mm SHAFT Ø, 3mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	3/03/DR110 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	3/03/TPN110 006	 6mm SHAFT Ø, 18 SPLINES	As above but with integral nut cover. Available in both 11mm and 13mm diameters.
	3/03/DRN110 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	3/03/TPN130 006	 6mm SHAFT Ø, 18 SPLINES	
	3/03/DRN130 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	3/04/TPP110 006	 6mm SHAFT Ø, 18 SPLINES	Contemporary styling with pointer continuing to top centre. With the smooth finish gripping pips are provided around the top surface. The 3/04 Series has a soft touch finish and the 6/04 a hard finish. The 6/04 Series only is also available in a three colour version. Please contact the Sales Office for availability.
	6/04/TPP110 006		
	3/04/DRP110 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	6/04/DRNP110 006		
	3/05/TPP100 006	 6mm SHAFT Ø, 18 SPLINES	Modern styling with integral nut cover and pointer extending over the top centre of the knob body. Available in both 10mm and 12mm body diameters. The 3/05 Series has a soft touch finish and 6/05 a hard finish.
	6/05/TPP100 006		
	3/05/DRP100 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>

	6/05/TPNP120 006		
	3/05/DRNP120 006	 6mm SHAFT Ø, 4.5mm FLAT SIZE <i>Specify orientation of pointer to flat</i>	
	6/05/DRNP120 006		

Slider knobs

SIFAM's slider knobs are designed and shaped to provide a stylish appearance with ease of control. The extensive range, in a matt finish, is intended to suit the needs of both applications and users.

Various materials are used depending on the design. Where nylon is specified this will match the finish of other SIFAM control knobs and pushbuttons moulded in this material. Likewise soft touch versions complement the rotary push-on knobs with the same finish.

Slider knobs are available, as standard, with black body mouldings but other colours are available. Lines whether printed or moulded are supplied in white, as standard, but other colours are available to order and can complement control knobs and pushbuttons, if required. Available colours are referred to on Page 9. Apart from the tang sizes shown, others may be able to be accommodated.

Should you have a requirement not covered by our standard range, please contact the Sales Office.

02 LK110 **02 LK150**
04 LK110 **04 LK150**

Moulded in nylon the optional indicator line is printed on the top only. The 04 model has an underhang for the 01 tang only.

Pushbuttons

SIFAM's pushbuttons are moulded in a matt-finish nylon to match the style and appearance of other SIFAM control knobs.

They are available, as standard, in black, grey, red and white. Other colours are available to order, please refer to Page 9. Should you have a requirement not covered by our standard range, please contact the Sales Office.

Special Printing

We are happy to offer our printing facility to those customers requiring special markings on our pushbutton products. Letters, numbers, symbols or logos may be printed to provide a high quality, durable, versatile and cost-effective added feature.

Please note that minimum order quantities apply to printed pushbuttons and other special requirements.

3/02 LK110		3/02 LK150		4/02 LK110		4/02 LK150		05 LK080		05 LK120	
Two shot, two colour soft touch finish with the outer body moulded in thermoplastic elastomer gives a smooth velvet feel. The indicator line, moulded in polypropylene, extends across the top and both sides.				Two shot, two colour design is a variant of the 3/02 model with both the body and line moulded in nylon.				Moulded in nylon the optional indicator line is printed on the top only.
