

Product Name: External Motor 60A R148

Input Voltage: DC6-60V

Output Voltage: Linearity under load (voltage drop at 2- ends of motor)

Max Current: 0-60A

Continuous current: within 50A

Speed regulation: potentiometer (continue 0-5V)

Speed range: 0—100% (infinite)

Control frequency: PWM 15KHZ

Connection: Cold-pressed terminal

Rotary Knob: 100K with switch (270 deg)

SIZE: 75MM*56MM*28MM

Weight: 280g
