

# UWB ultra wideband logarithmic periodic antenna

Model: 2W1084500

## Performance indicators:

1. Antenna frequency: 740-6000MHz
2. Antenna standing wave: less than 2 (typical value)
3. Antenna polarization: directional line polarization
4. Antenna gain: 6-7dB
5. Power capacity: 50W
6. Overall dimensions: 150 x 200mm
7. Weight: 74 grams
8. Joint form: SMA-K (standard female head, external screw and internal hole)
