

RJ45 Ethernet Splitter Connector, IP65, Female

FL34 / 180382

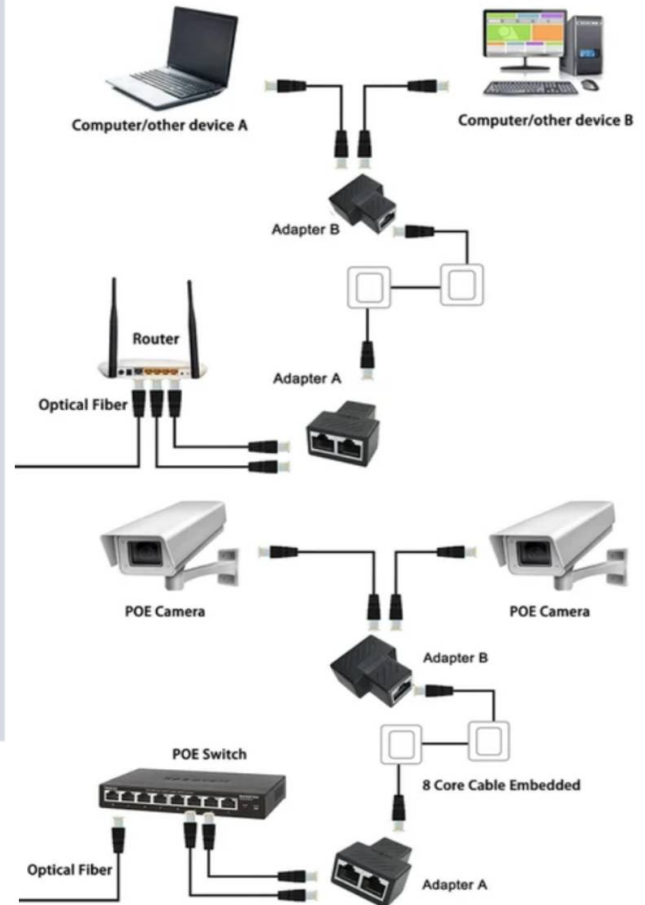

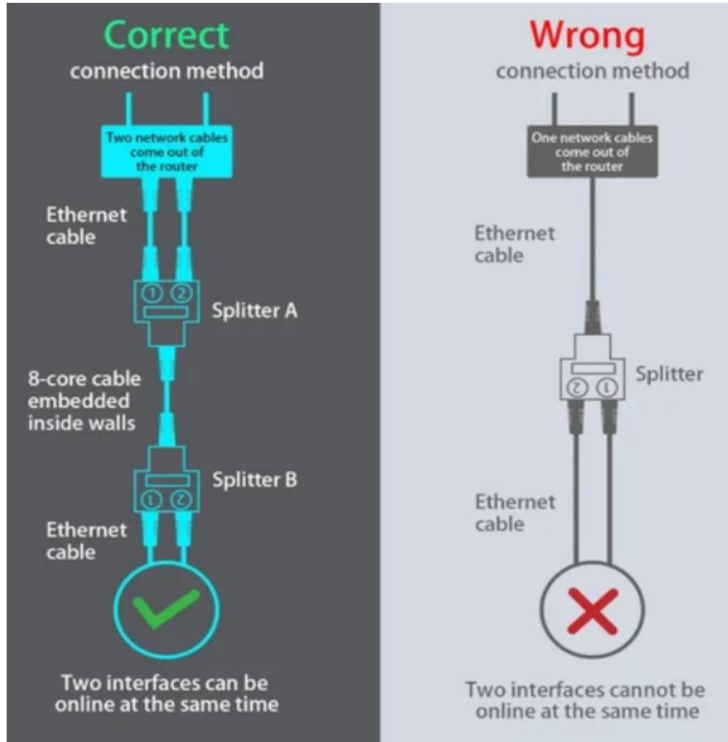

Connector Gender: Female
 IP Rating: IP65
 Connector Orientation: 180
 LAN Category: CAT 5
 Type: RJ45
 Usage: Electronic Device

RJ45 8 pin function

1. Transmit data positive Tx +
2. Transmit data positive Tx -
3. Accept data positive Rx +
4. Spare
5. Spare
6. Accept data negative Rx-
7. Spare
8. Spare

Ethernet splitters allow users to run one cable instead of two through walls, floors, and ceilings over long distances. For the equipment will still need two cables to make the network connection. To facilitate this, ethernet splitters must be used in pairs.

When Using a Pair of Dispensers Two Devices Can Access the Internet Simultaneously
