# MORNSUN®

### 10W, AC-DC converter

## FEATURES

- 85 264V Universal AC or wide 100 370VDC Input
- Operating ambient temperature range: -40  $^\circ\!\mathrm{C}$  ~ +85  $^\circ\!\mathrm{C}$
- High I/O isolation test voltage of up to 4000VAC
- Regulated output, low ripple & noise
- Output short circuit, over-current and over-voltage protection
- High efficiency, high reliability
- Plastic case meets flammability per UL94V-0
- EMC compliant to CISPR32 / EN55032 CLASS B
- IEC/UL/EN62368 approval

LHE10-20Bxx series is one of Mornsun's compact size power converter. It features universal AC input and at the same time accepts DC input voltage, low power consumption, high efficiency, high reliability. It offers good EMC performance compliant to IEC/EN61000-4 and CISPR32/EN55032 and the safety certifications to UL62368, IEC62368 and EN62368 standards are pending. The converters are widely used in industrial and office applications. For extremely harsh EMC environment, we recommend using the application circuit show in Design Reference of this datasheet.

#### Product Characteristic Curve

Note: 1) With an AC input between 85-100V/240-264VAC and a DC input between 100-120V/340-370VDC, the output power must be derated as per temperature derating curves;

2 This product is suitable for applications using natural air cooling; for applications in closed environment please consult factory or one of our FAE.

#### Output Filter Components:

We recommend using an electrolytic capacitor with high frequency, and low ESR rating for C2 (refer to manufacture's datasheet). Choose a Capacitor voltage rating with at least 20% margin, in other words not exceeding 80%. C1 is a ceramic capacitor used for filtering high-frequency noise and TVS is a recommended suppressor diode to protect the application in case of a converter failure.

#### 2. EMC compliance recommended circuit

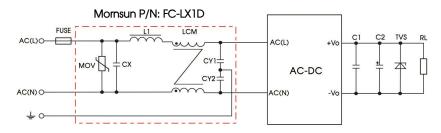

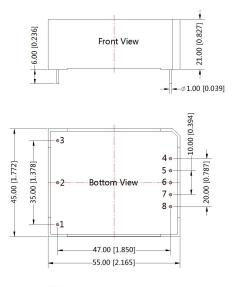

Fig 2: EMC circuit for harsh requirements; recommended filter part FC-LX1D (Mornsun)

| Component                       | Recommended value                                       |
|---------------------------------|---|
| MOV                             | \$14K300  |
| CY1, CY2                        | 1000pF/400VAC   |
| СХ                              | 0.1µF/275VAC  |
| LCM                             | 10mH, we recommend using part no. FL2D-Z5-103 (MORNSUN) |
| LI                              | 4.7µH/2A  |
| FC-LX1D                         | 2kV/4kV EMC filter                                      |
| FUSE 2A/250V slow-blow required |   |

#### Note:

- 1. For additional information on Product Packaging please refer to <u>www.mornsun-power.com</u>. Packaging bag number: 58220006(Horizontal package); 58220010 (A2/A4 package);
- 2. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25 °C , humidity<75% with nominal input voltage and rated output load;
- 3. All index testing methods in this datasheet are based on our company corporate standards;
- 4. We can provide product customization service, please contact our technicians directly for specific information;
- 5. Products are related to laws and regulations: see "Features" and "EMC";
- 6. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
