

## **LJ12A3-4-Z/AX**

Brand: Shanghai Huchuang Industrial Co., LTD

Name: Proximity switch

Output mode: The three-wire NPN is normally closed

Operating voltage: 6-36VDC

Output carrying current: 300 ma

Detection distance: 4mm

Overall dimension: 12\*60\*1mm

Operating temperature: Zero 10 to 60 degrees

Wire length: 1.2 m

Self-consuming current: Less than 5 mah

Detection material: metal

Connection mode: The brown line connects to the positive line and the blue line connects to the negative black line. The output is 0V.
