

Yueqing Nadi Electric Co., Ltd.

Product recognition

Product Name : NDEI6628220-12V\*2

Version : B/0 ver

Product name		POWER TRANSFORMER WITH WIRE LEADS		Part NO.		NDEI6628220-12*2			
No-load characteristic				load characteristic					
characteristic	specification	winding	characteristic	specification	unit	winding			
Input Current	20±10%	Primary	Input Current		mA	Primary			
Input Voltage	220	Primary	Output Voltage1	12V±10%	V	Secondary side			
Output Voltage1	12V±10%	Secondary	Input Current1	1000	mA	Secondary			
Output Voltage2	12V±10%	Secondary s	Input Current2						
electrical schematic diagram  				Coil Parameter					
				characteristic	Wire dia.	material	turns		
				Primary red-red	0.20	2UW	1300		
				Secondary white-white	0.60	2UW	80		
				Secondary two yellow-yellow	0.60	2UW	80		
Voltage error	±5%								
Insulation resistance	DC500V 100M								
Interlayer pressure	AC 440V 400HZ								
Short circuit test	UL/CAS								
Wire specifications	Red wire: 10157-22# 200+30		Lead left and right up and down, the first time on the next						
	Secondary: 10157-22# 200+30
