

12V, lithium battery Large capacity 100Ah,

Model: XC-P12V100AH-N / 170775**Description:**

Battery Type:	Lithium 18650
Capacity:	100Ah
Nominal Voltage:	12.0V
Actual Voltage:	11.1V
Charge Voltage:	12.6V
Overcharge protection voltage:	12.8V
Over-discharge cut-off voltage:	8.5V
Charging Current:	8A
Maximum 'constant current:	150A
Maximum short burst current:	450A
Charging time:	6 hours
Dimensions:	310x235x72mm
Weight:	5.7kg

Applicable type Outdoor portable power supply

It is suitable for DC power supply products such as electric bicycles, solar lamps, outdoor energy storage, power tools, etc. The company uses high-end domestic and imported batteries with industry-leading battery protection boards. Deep processing assembly testing, dedicated to creating a safe, lightweight lithium battery pack.

The quality of the products is serious, the lack of professional knowledge of consumers can not identify the status quo of safer lithium battery products, and provide consumers with a reliable 12V large-capacity outdoor portable power supply products.
