

DC-DC Adjustable Buck Module / Step Down Module: INPUT 3~80V, Adj. Output 0 ~24V

Model: YYPOW-1 / 180366

Function overview:

- 1: Product Model: YYPOW-1
- 2: Input voltage range: DC3~80V Support high voltage input
- 3: Output voltage range: DC0~24V
- 4: Output current capability: within 800mA
- 5: Interface information:
 - DC+ : Input the positive electrode.
 - DC- : Input the negative electrode.
 - OUT+ : Output positive.
 - OUT- : Negative output.
- 6: Working environment temperature: The highest temperature 85 degrees, the lowest temperature -25 degrees.
- 7: Size: 33.5mm*22.5mm
