

Micro vacuum pump ZX512-Series 12VDC, suction vacuum pump.

Model: ZX512-SERIES

Model	Volts V	Pressure kpa	Vacuum kpa	L/min	Power W	weight g
ZX512-806-4800N	12	200	80	15	12	300
ZX-512-704-2900N	12	160	70	11	8	300
ZX-512-604-2900N	12	100	60	8	5	300
ZX-512-504-2900N	12	80	50	5	4	300

Features:

The pump uses a brushed DC motor motor with adjustable speed, adjustable flow and low heat generation. Special materials and formulations can be used to suit special occasions according to special requirements.

Use:

Mainly used in electrical products, agriculture, fisheries, light industrial products, analytical instruments, chemical and production engineering and various instruments, can work continuously for a long time. It has a long service life at room temperature and can provide various certifications according to customer requirements.

Precautions:

1. Do not exceed the limits specified in this specification when using this product, otherwise we do not guarantee this product.
2. Keep the intake and exorst ports of this product clean and smooth, no solid particles, can contain a small amount of water (some models can be used for both water and gas), do not allow solid foreign matter to enter the pump body, in the non-clean air, please install filter device at the inlet and outlet ports.
3. The parameters listed in this product are for reference only. The specific parameters are subject to the actual product.
4. Non-professionals are strictly prohibited from disassembling this product.
