

Stainless Steel Flat Side Cutter

Module: BH-305

Description:

Very sharp and durable, stainless steel flat side cutter

use: Electronic components cut, plastic outlet cut.

Precautions:

1. To ensure your safety, please use safety glasses.
2. Do not use the scope of work outside the scope of pliers, or it will damage the pliers.
3. If the body is not in place, please close several times.

Performance parameters:

Model	Length	Opening Jaw	shear capacity
BH-305	135mm	12mm	Copper wire $\Phi 1.6$ Iron wire $\Phi 0.8$

Material: stainless steel alloy

Heat treatment: acid-free heat treatment of all 42-50HRC

Cutting edgewith high frequency heat treatment ≥ 62 HRC

Features: Hardness, wear-resistant easy to dislocation.

1. Stainless steel alloy, never rust.
2. Spring is made of 1.2mm steel wire, strong elasticity, rivet in the handle, do not fall off.
3. Combination of column surface treatment, and the same body hardness, wear-resistant easy to dislocation.
