# G7M - User Manual

July 07, 2019

#wireless display

## Find Out Your Product is 2.4G or 5G

G7M comes in two models, please check your MiraScreen main screen, if the left-up logo shows "MiraScreen5G+" then your G7M supports 5G, otherwise, your G7M supports 2.4G.

## Download EZMira App

Please Scan the QR code on screen to download App for quick connection and setup for iOS and Android devices.

IMPORTANT! The new AnyCast products are supported by EZMira. If you plug your dongle and find out the barcode on the home menu doesn't link to EZMira, then it means that your dongle does not yet support EZMira.

## Video Guide

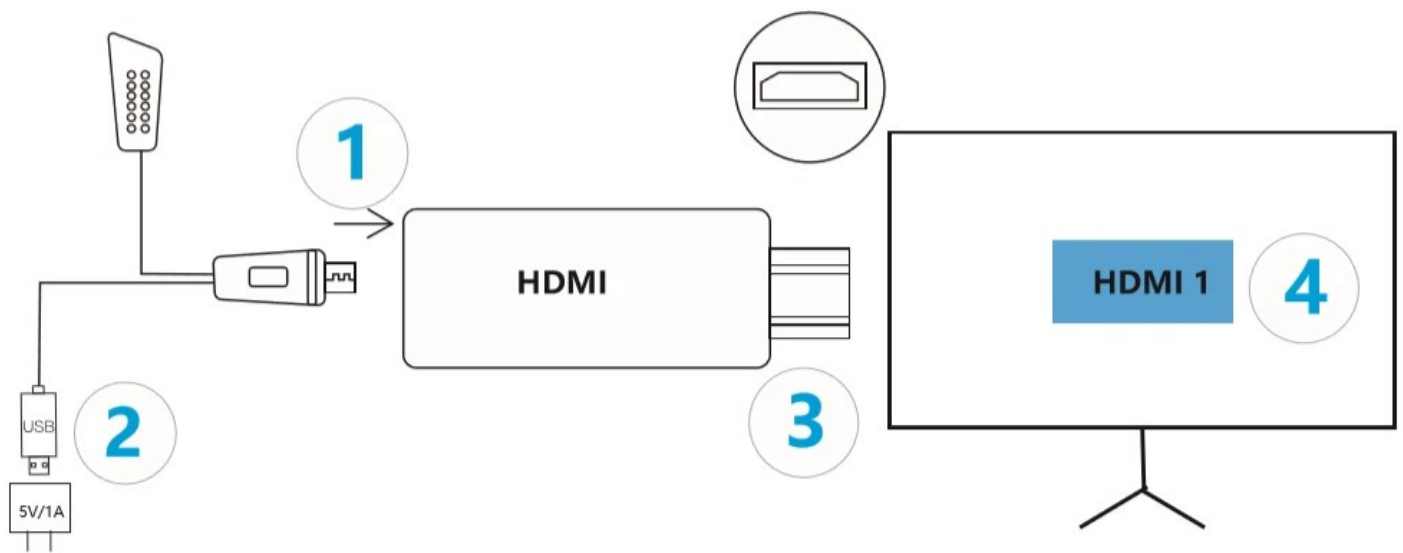

Subscribe to our handy videos to learn more about mirroring with MiraScreen.

## Instruction

MiraScreen is a wireless screen mirroring receiver. With MiraScreen users can easily cast videos or games from a small screen to a big screen. MiraScreen supports multi-OS mirroring which including Windows, macOS, Android, and iOS. Ongoing free firmware is provided to catch up the latest devices. Please follow the user guide below to complete the setup. Happy Mirroring!

## Hardware Installation

### 1. MiraScreen to wifi module

Plug wifi module micro USB port to the dongle micro USB port.

### 2. MiraScreen to power

Plug the wifi module type-A USB port to an external 5V/1A power adapter port.

### 3. MiraScreen to TV/projector/Monitor

Plug the dongle HDMI port to TV/projector/Monitor HDMI inputs.

### 4. Select Source

Select the right HDMI source which connected to MiraScreen dongle. If everything works fine, you may see the main MiraScreen setup screen.

## MiraScreen to Internet

### 1. Scan QRCode to connect wifi

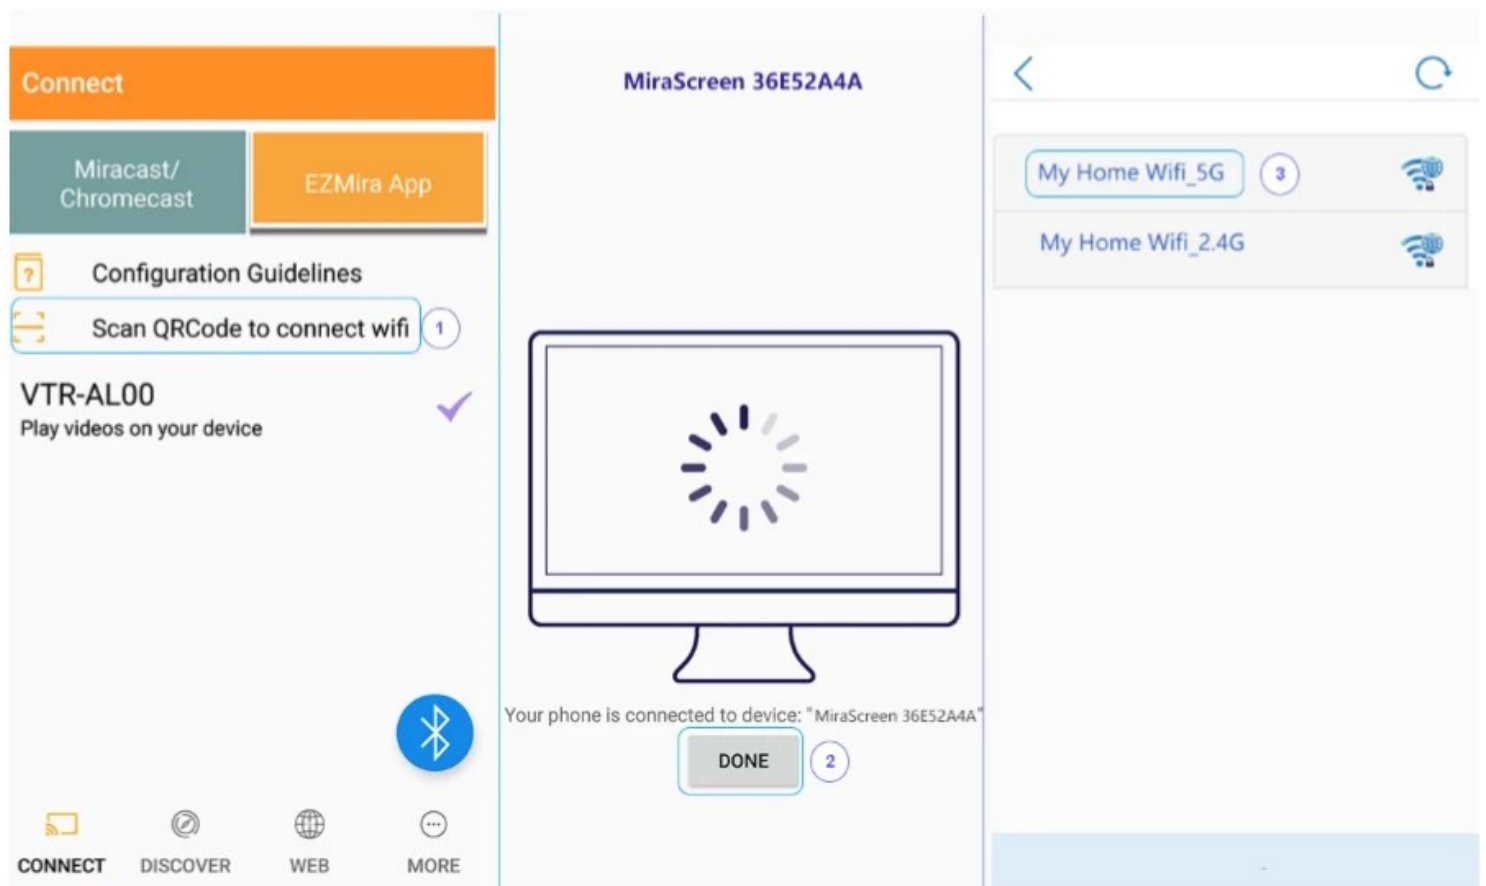

1.1 Turn on EZMira app on your smart device. Tap "EZMira App" and select "Scan QR code to connect wifi".

1.2 Scan the QRCode on the TV screen and wait for a few seconds.

1.3 Tap "Done" icon after MiraScreen connecting to your phone via wifi. The wifi setup page will pop out automatically.

1.4 Select home wifi and type into the password to connect.

Note: If wifi setup page won't pop out automatically, please refer to method 2.

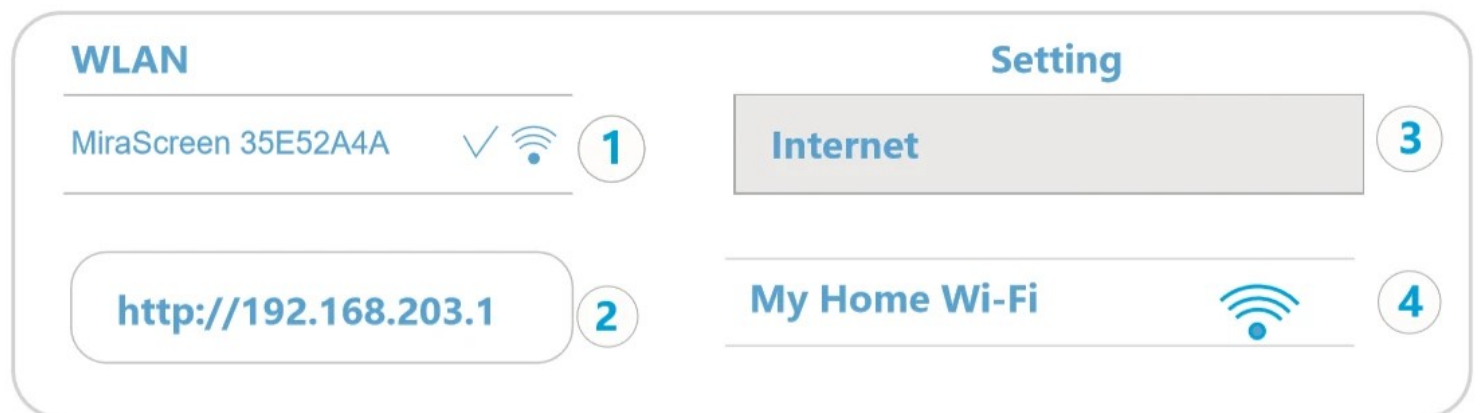

## 2. Connect wifi from browser

2.1 Connect your device to MiraScreen SSID via wifi (SSID and password shows on the TV screen)

2.2 Turn on device browser and enter the URL 192.168.203.1

2.3 Tap "Internet" option from the setup page

2.4 Select home wifi and enter wifi password to connect

## Android Mirror

## 1. EZMira app Mirror (Available on Android 5.0 and above)

1.1 Turn on EZMira app on your smart device. Tap “EZMira App” and select “Scan QR code to connect wifi”.

1.2 Scan the QRCode on the TV screen and wait for a few seconds.

1.3 Tap “Done” icon after MiraScreen connecting to your phone via wifi.

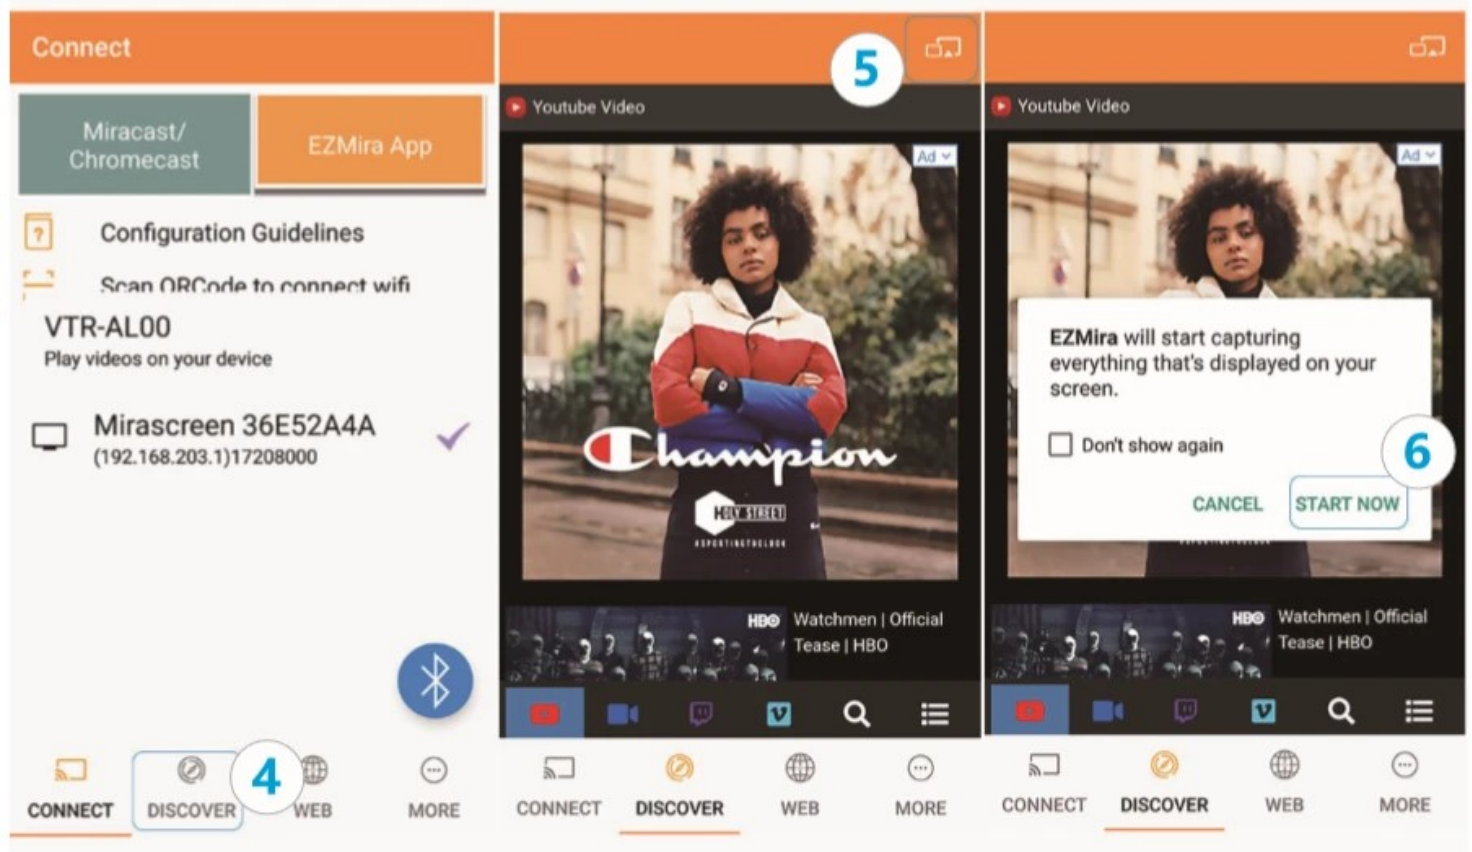

1.4 Click “Discover” from EZMira app bottom.

1.5 Tap mirror icon on the right top corner.

1.6 Select “Start Now” to mirror.

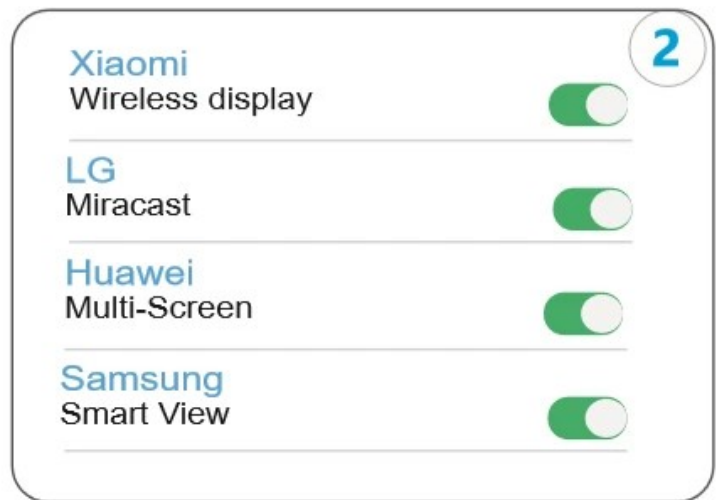

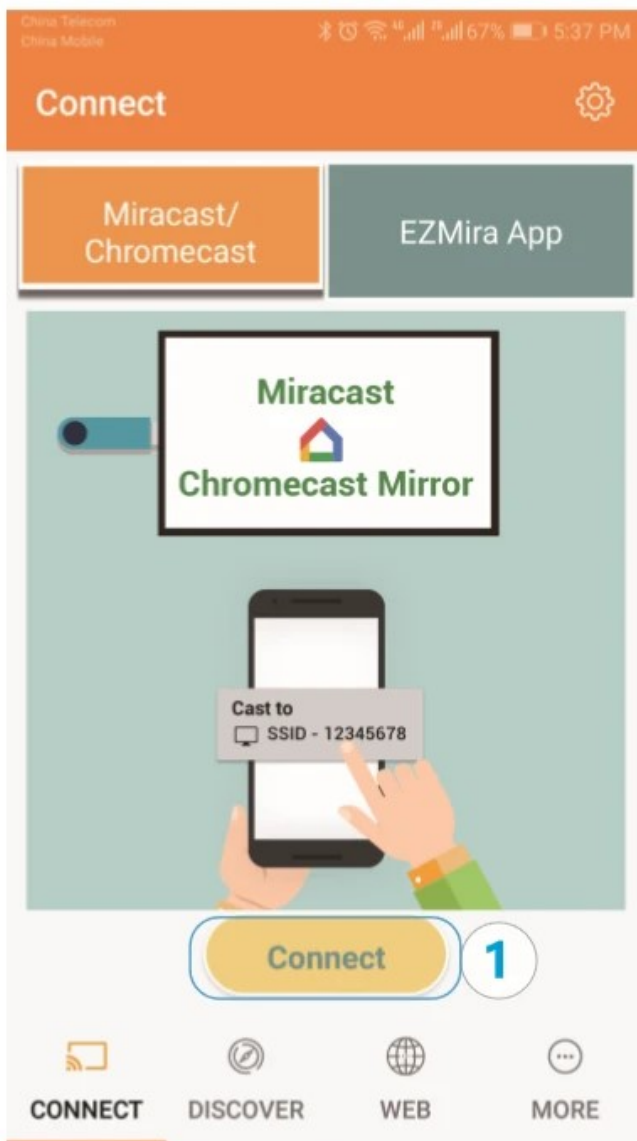

## 2. Miracast mirroring

2.1 Turn on EZMira app and tap “Connect” option.

2.2 Enable Android Miracast and select device SSID.

2.3 Connect to MiraScreen and start to mirror.

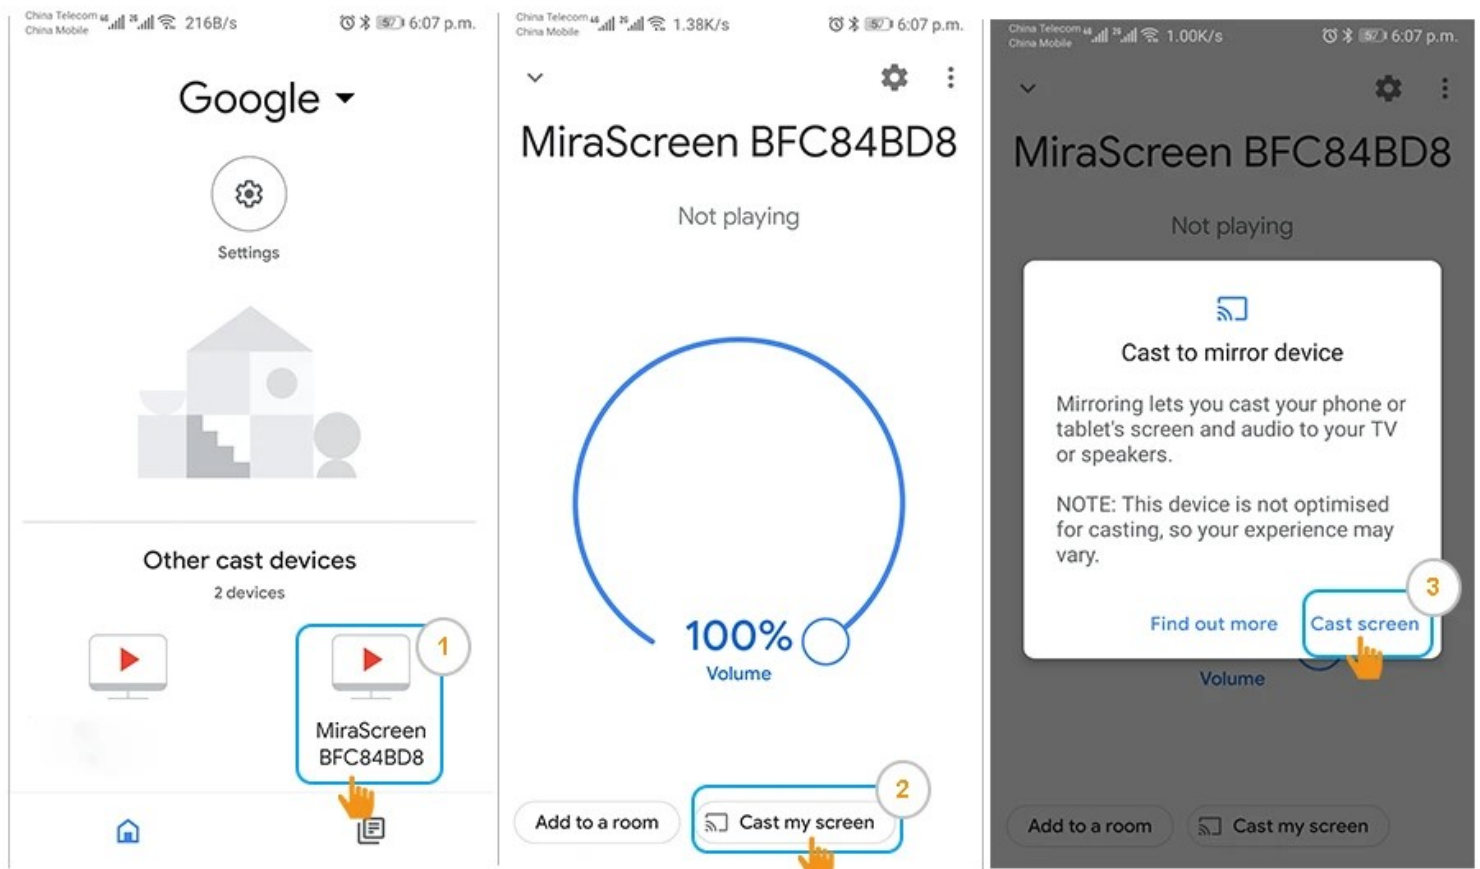

Note: Miracast mirroring available for the devices which support Miracast only.

### 3. Google Home App mirroring

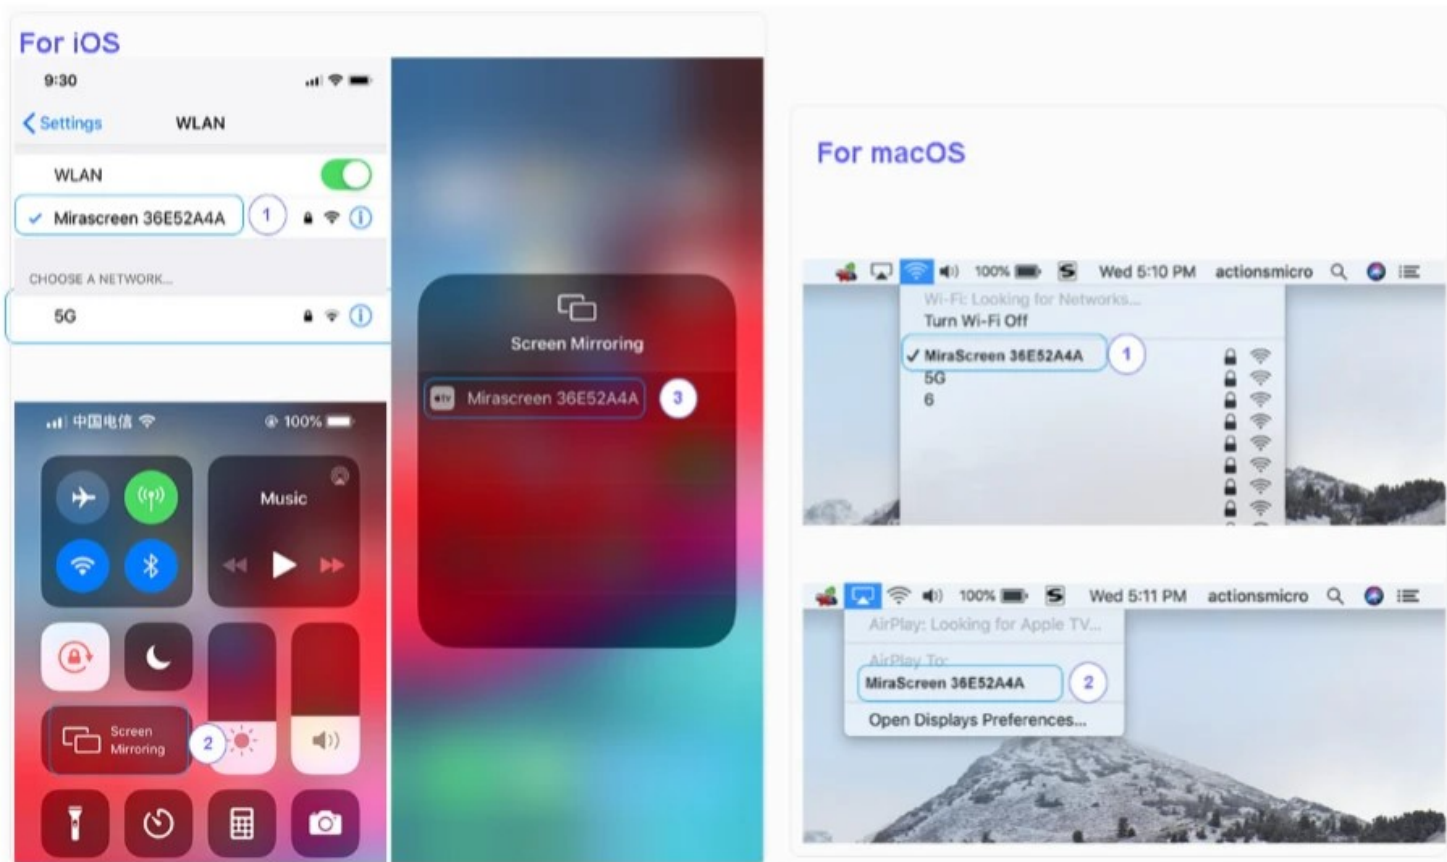

- 3.1 Download Google Home App from Google Play Store.
- 3.2 Enable mobile phone USB tethering option(Refer to USB tethering mirror).
- 3.3 Turn on Google Home App and select the "Account" login Google account.
- 3.4 Wait for about 30s before MiraScreen appear.
- 3.5 Select MiraScreen-xxxxxxx and start to mirror.

Noted: Make sure both MiraScreen and smart devices connected to the same wifi router.

## iOS/macOS Mirror

1. Connect iOS/macOS device to MiraScreen SSID via wifi.
2. Turn on Screen mirroring/Airplay mirroring and tap MiraScreen dongle.
3. iOS/macOS device screen will mirror to the TV.

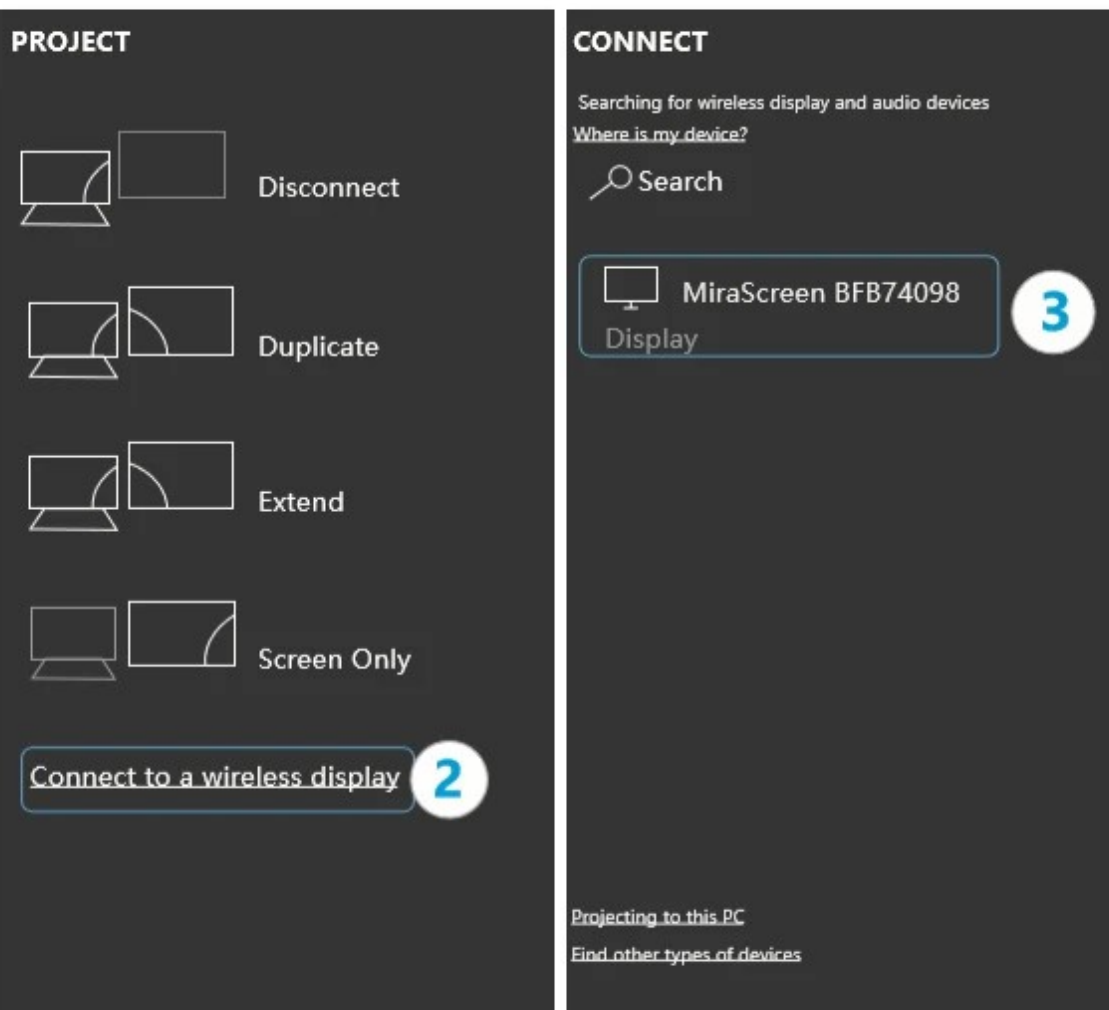

## Windows Mirror

### 1. Miracast mirroring (available for Windows 8.1 and Windows 10)

1.1 Press short keys "Win+P" on your keyboard.

1.2 Select "Connect to a wireless display".

1.3 Select MiraScreen dongle to connect.

## 2. EZMira Mirroring

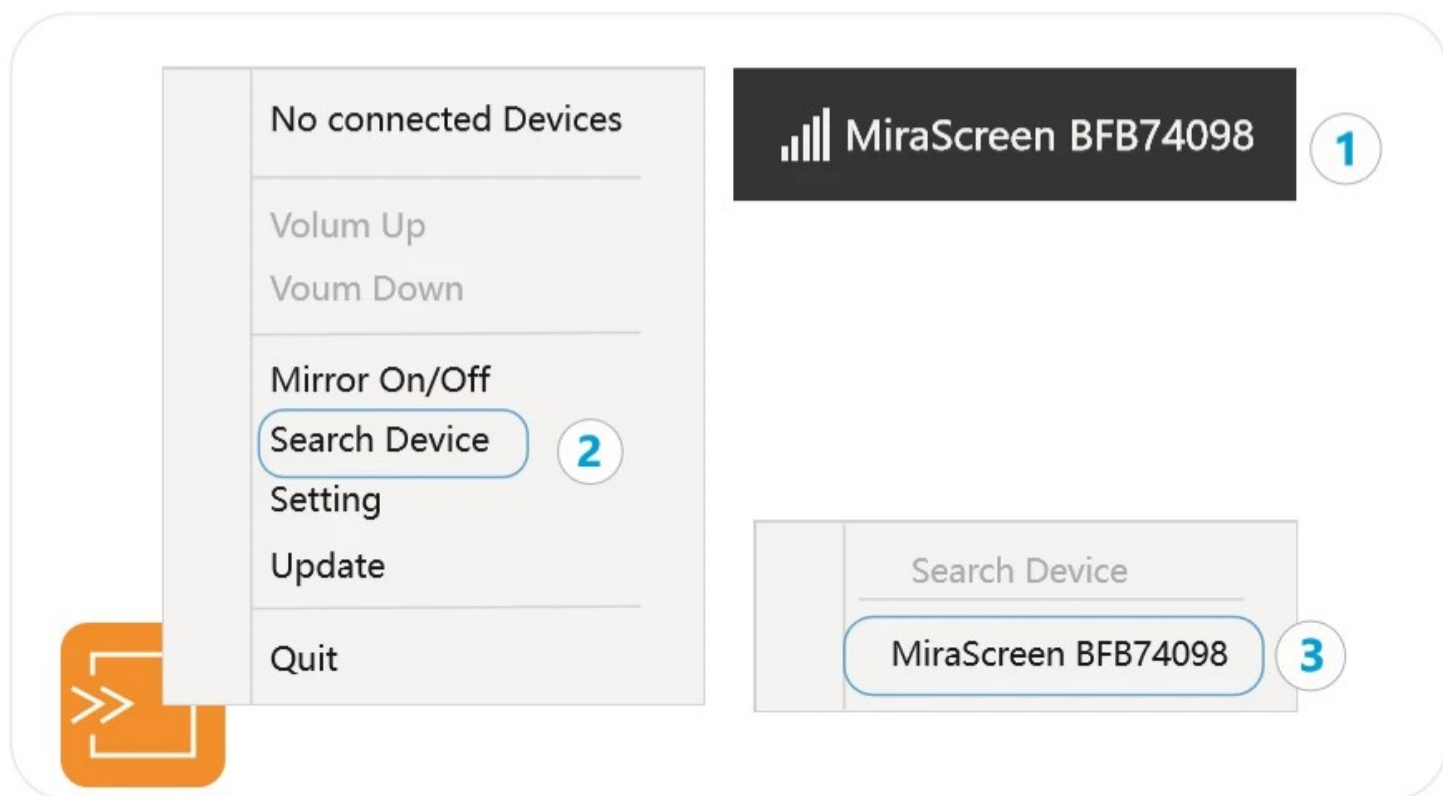

2.1 Download EZMira from <https://mirascreen.com/pages/download-ezmira-for-windows> and install EZMira app to your PC.

2.2 Turn on Windows wifi and connect to MiraScreen SSID (SSID and password are shown on the TV screen).

2.3 Turn on EZMira app and select "Search Device" option.

2.4 Select MiraScreen device and the Windows PC screen will mirror to the TV automatically.

Note: Please turn off the Windows firewall/anti-virus software/computer housekeeper if the searching device failed.
