PRINTER 66

THE EFFECTIVE CLEANING AGENT FOR PRINTER HEADS

In order to maintain high standards of legibility in data processing print-outs, printer components must be kept clean. An effective cleaning agent is therefore of the utmost importance in this field. PRINTER 66 contains an anti-static additive to minimise dust attraction and damage due to electrostatic discharge, during long periods of time.

FEATURES	APPLICATIONS
<ul style="list-style-type: none"> An effective mixture of solvents, which dissolve and remove both ink residues and grease soiling. Abraded metal deposits, ribbon residues, harden oils, greases and other soiling, which can interfere with performance, can all be removed by PRINTER 66. Degreases the whole printer unit. 	<ul style="list-style-type: none"> Soiled components are sprayed directly and therefore cleaned effectively. In cases of heavy soiling, it is recommended that the rinsing solution is collected using a cloth or tissue. Can be used to clean and maintain various types of printers : <ul style="list-style-type: none"> - Daisywheel printers - Dot matrix printers - Chain printers - Golf ball printers - Thermal printers - Ink jet printers.
