KS0474 Keyestudio GAMEPI DIY Game Console learning Kit for Arduino

Description:

For those who like DIY, they definitely want to make their own game machine. Next, we specially introduce a game console kit. In this kit, we provide the hardware of the DIY game console. You can design your own game code to make the game console according to your ideas. In order to increase the joy of the game console, you can upload your own game program, game program we provide, or game program on Arduboy to the game console. When using it, we offer complete game software and upload method.
