

Model: Q17 YILONG / 220199

Glass fibre pencil / pen

The abrasive glass fibre pencil is ideal for accurate and rapid cleaning, de-rusting and surface preparation on a variety of materials. The propelling pencil action exposes more or less of the glass fibres. The shorter the fibres showing, the more abrasive the action is applied.

It can be used for fine deburring, polishing, light rust removal, or cleaning and erasing in chemical etching processes. It is excellent for pre-solder and contact cleaning.

Electronic:

Removes enamel masking leaving the bare copper, track corrosion or oxidation removal, battery terminals cleaning.

Collectors:

Cleaning coins and objects recovered by metal detector, watch maintenance and cleaning. Buffing out scratches

Modelers:

Surface preparation, car bodywork, Fine sanding and weathering application, cleaning Railway tracks and cleans metalwork, plastic and wood.

SAFTY: Avoid skin contact with fibreglass tip and breathing the glass particles .
Wear protective gloves and respirator mask.
