CREE XR-E LED

Exceptional
Illumination

Aircraft
Aluminum
Alloy

This LED flashlight is powered by 3 D size batteries. It is made of CNC machined anodized aircraft aluminum, and is weatherproof and shock resistant. The high quality and durable CREE LED ensures outstanding performance. It is the ideal choice for both traveling and domestic activities.

Main Features

- The barrel is constructed of easy grip aluminum alloy with an anodized surface.
- The rubber “O” ring and sealed switch help ensure high weatherproof performance.
- The push switch is covered by a rubber sheath, is water resistant and comfortable to hold.
- Fashion Exclusive appearance design and anodized surface.
- The high energy efficient CREE XR-E LED provides outstanding illumination, high energy efficiency, long beam distance and extremely long lifetime.

Package Details

Card:
 Qty/CTN (pks): 12
 Carton Size (cm): 29.2 x 22.5 x 41.8
 Gross Weight (kg): 4.3

Specifications

Power Source:	D size battery (x 3)
Light Source:	CREE XR-E Q5 LED
Luminous Flux:	MAX 150LM
Continuous Operating Time:	20H
Beam Distance:	200 M
Dimensions:	Φ55mm*296mm (Head* Length)
Weight:	290g (without batteries)
