

2.4G Antenna 195mm long.

Model: TX2G4-JKA-020 / 170497

Product feature:

Antenna model: ASHINING-2.4G

Antenna Frequency: 2.4G high gain wireless 6dbi wireless antenna

1. The length and diameter of the antenna are 195mm and 12mm. It is bendable and the high-gain 6dbi.
2. Interface type: SMA-J. Suitable SMA base: SMA-KE. Suitable for all of the 2.4G module products of our store, and please pay attention to the interface type when choose other functions.
3. Suitable frequency band: 2.4Ghz. Power capacity: 5W. Impedance: 50 Ohm. SWR: <1.5
